Welcome to the Blue Ocean Safari Dive Center located in Mahahual, Costa Maya, Mexico.

Along with our resort partner, the Luna de Plata Hotel and restaurant, we look forward to making your time in Mahahual memorable. At Blue Ocean Safari and Luna de Plata, we understand the special needs of divers. Our experienced team of PADI professionals is ready to provide attentive, personal service to divers of all levels. We do not believe in the "cattle boat" approach to scuba diving. All of our trips are small and personable.

Our aim is to provide an extraordinary experience for all who dive our pristine reefs. At Blue Ocean Safari, we strive to instill a respect for the delicate nature of our reefs and the need to conserve these precious resources for future generations.

Blue Ocean Safari Dive Center offers local diving and snorkeling on the reefs offshore from our facility. We are one of few dive operators in Mahahual that possess all the required permits to dive the famed Chinchorro Banks. The Chinchorro Banks is truly one of the worlds "must do dives". Cenote diving can also be arranged at any of the several cenotes along the Yucatan, including the famous Hidden Worlds Cenote Park.

Dive education is an important part of our philosophy. Our team of experienced PADI professionals offers everything from introductory Discover Scuba experiences through Instructor level certifications. We also offer a wide range of specialty certifications ranging from underwater photography to cavern diving.
